CHAP. X.

*An Act for enabling the Treasurer to
emit a sum of money for supplying
the publick exigencies.*

WHEREAS it is at present uncertain whether the monies directed to be emitted by an act of the last assembly, entitled "An act for providing a supply in aid of the loan office," and those which have, and shall come into the treasury, until the taxes of the present year be paid in, will be sufficient to answer the calls for the publick service: *Be it enacted by the General Assembly,* That it may and shall be lawful for the treasurer of this commonwealth, to issue treasury notes in dollars for any sum, or sums, which may be required to supply the deficiency, until the taxes of this present year shall be paid in, so as the sum to be issued by authority hereof do not exceed one million of pounds. And he shall cause such notes to be engraved and printed in such manner, and on such paper, as he shall judge most likely to secure the same from being counterfeited. He shall appoint proper persons to overlook the press, and to number and sign the notes, upon the best terms he can. The bills of credit to be emitted by virtue of this act, shall be entered in the auditors office to the debit of the treasurer, and be signed in the left hand corner by one of the auditors or of their clerks, or by any assistant clerk to be appointed for this special purpose by the auditors, who shall receive such allowance for his service as they shall judge reasonable; without which signature, the said notes or bills of credit shall not be current. If the taxes imposed by the several acts now in force shall be insufficient to answer the purposes for which the said taxes were laid, and also for the redemption of the notes to be issued by authority of this present act, farther provision shall be made by law for making good the deficiency, and redeeming the whole before the first day of December, which shall be in the year of our Lord one thousand seven hundred and eighty six.

Further emission of paper money authorized.
